October 2016

Dear Friend:

The election in two weeks away and it is critical that we elect Hillary Clinton and Tim Kaine our next President and Vice President. Hillary Clinton has fought in support of issues such as strengthening Social Security and Medicare, improving early childhood education and establishing programs to end teenage pregnancy and domestic violence against women for over 30 years. She has been unwavering in her support for working families and labor unions and she has aggressively stood up for workers' bargaining and organizing rights. Hillary Clinton is the only candidate with the experience and determination to tackle these problems and move our country forward. It's important that we work together to support Hillary Clinton and the Democratic Party in this election to ensure that the economic gains by working class and union families in our community continue into the future.
